*To ensure participation, students should register five business days prior to the start of class. Refunds will not be given to persons cancelling less than two business days prior to the start of class. If we are forced to cancel a class due to low enrollment, full refunds will be made.*

# PHLEBOTOMY

## HSC 588

### Program Overview:

This course provides a basic introduction of the proper techniques and procedures for collecting blood specimens. Topics include professionalism, safety, medical terminology, anatomy, isolation, nursery, and special collection techniques. **No clinical experience is provided.** The course is 15 hours in length and is taught in five 3 hr segments. It is especially useful for persons working in health care that need phlebotomy credentialing. Students finishing this course, **after 1 yr. experience and documenting 25 venous punctures and 5 capillary sticks you will be able to take the National Competency Exam to become a Certified Phlebotomist.** High School diploma or GED required.

### Course Cost: \$129

(The Complete Textbook of Phlebotomy by Hoeltke required for course and may be purchased from York Technical College bookstore-approximately \$100)

### Salary Range: \$7-\$10

### Career Opportunities:

Hospitals, clinics, Dr.'s offices, independent laboratories....

### Opportunities for advancement:

York Technical College is proud to offer other health related courses that phlebotomy would be an asset with occupations such as Medical Laboratory Technician, Medical Office Assistant, Nursing Assistant, and Nursing.
