# ECG Technician

## HSC 1157

*Knowledge and application of some basic computer skills are needed to be successful in some of the healthcare courses and in the healthcare setting in general.*

**COMPUTERS FOR THE HEALTHCARE SETTING** is strongly recommended and includes:

- *Introduction to Computers*
- *Microsoft Word*
- *Keyboarding*
- *Microsoft Excel*

**Program Overview:** Energize your career by becoming an ECG Technician. This exciting program is for individuals who have an interest in monitoring electrical impulses transmitted by the heart. Students will learn the anatomy and physiology of the heart, the mechanics of the ECG machine and interpretation of ECGs. A high school diploma or GED is required. A course in medical terminology is strongly recommended. CPR (BLS for the Healthcare Provider) is required before the course is completed.

**Course Cost:** \$295

(Textbook and supplies are available at the York Technical College Bookstore-approximately \$80.)

**Salary Range:** \$7 - \$14 per hour

**Career Opportunities:** Eligible to take the National Center for Competency Testing to become a Certified ECG Technician upon successful completion of the course. ECG Technicians work in hospitals, physicians' offices, clinics or as monitor technicians.

**Course Description:** This 40-hour course provides the student with instructions for collecting information and data about a patient's heart using electrocardiography. Topics include: role of an ECG Technician, operation of a 12-lead electrocardiograph machine, identifying heart rhythms, anatomy and physiology of the heart, the mechanics of the ECG machine and recognition of normal and abnormal patterns in the ECG leads. Treadmill stress tests and use of a Holter monitor will be explored.
