2005-2006 IE OUTLINE

AUTOMOTIVE TECHNOLOGY

MISSION/PURPOSE

The purpose of this department is to offer accessible, relevant, and high quality education by providing a comprehensive program of systematic, competency based instruction in the area of Automotive Technology.

EXPECTED RESULTS/OUTCOMES

The Automotive Department will complete the onsite inspection required by NATEF. This inspection includes automotive classrooms, shop areas, office space, and storage areas. The facilities must meet all requirements including safety and availability of equipment. (Goal 2, Strategy A)

MEANS OF ASSESSMENT

This department will have met its goals upon completion of the onsite inspection.

STATEMENT OF IMPACT

The onsite inspection was done on May 10, 2006. Ken McKinney was the NATEF inspector and he evaluated the auto shops in "D" building and "G" building along with the automotive curriculum. Mr. McKinney was impressed with our progress to date and saw no problems with our curriculum. He stated that the shop areas were in good shape but needed a few improvements. Most of the improvements involved safety equipment and safety signs. The automotive department along with the maintenance department is working to make the improvements.
