School Name: _____

Student Social Security Number: _____

Accompanying Adult: _____

Address: _____

City: _____ State _____

ZIP: _____ Phone: () _____

Email: _____

Payment Type:
 Check enclosed (payable to York Technical College)
 Credit Card (circle one)

Mastercard Visa Discover Amex

Account # _____
Exp. Date: _____ Sec. Code: _____

Please mark your first and second module choices with a 1 and 2.

- Popsicle stick bridges (civil, mechanical)
- Catapults (civil, mechanical)
- Make your own battery (electrical)
- LED jewelry (electrical)
- Webpage Design (multimedia)
- Disposable Cameras (electrical)
- M&Ms (General Eng.)
- Roller coaster (civil, mechanical)
- Bedroom Bug Alarm (electrical)
- Great Presentations with Vuvox (multimedia)
- Simple Calculator with Lab View (electrical, graphics)
- Bottle Lamps (electrical)
- Designing with Pro Cam (graphics)
- Water quality (chemical)

Overview

Date: February 28, 2009 from 9am to 3:30pm

Location: York Technical College's Rock Hill Campus

Who can Attend? The first 50 young women in the 6th to 9th grades and their mothers (although aunts, grandmothers, guardians, or dads are welcome) to register

Cost: \$10 per person

Registration Dates:
Open registration- Nov. 24 -Dec. 12

This one-day workshop at York Technical College shows young women, through hands-on activities, that engineering is a fun and exciting career. The workshops will be held in the college's labs and classrooms. Sign-in, opening and closing ceremonies, as well as the mothers program and role model speakers will be held in Barnes Auditorium, located inside the Hood Center.

Student Activities

The day focuses on the four to five sessions the young women will attend throughout the day, chosen from a total of 14 workshops (listed on the registration form). The workshops are hands-on with a "product" that the student can take home, whenever possible, that relates to an engineering or technology career. Workshop leaders will be women engineers or engineering technologists. Students will be given ribbons for 1st and 2nd place and overall prizes in selected sessions will be awarded at the end of the day.

Adult Activities

More than 65% of high school students say they discuss their choice of career with their mother. This program provides an opportunity for interested mothers (or other responsible adult) to stay and learn how to help their daughter in areas such as: financing for college, and career opportunities. Guest speakers will be on hand to answer questions.

Registration

Registration is first-come, first-served to the first 50 young women who sign up. Each student may bring only one adult. Mothers are strongly encouraged to attend. Cost is \$10 per person attending.

Open registration: Nov. 24 - Dec. 12.

Online registration is not available at this time.

Register by one of the following methods:

Fax the form on the right along with your credit card information to: (803) 981-7327

Mail the form and payment to: York Technical College, Attn: Continuing Education, 452 S. Anderson Road, Rock Hill, SC 29730

Phone in your information and pay by credit card: (803) 325-2888

Walk into the Continuing Education division in C-building Mon. to Thur. 8 am to 8 pm and Fri. from 8 am to 5 pm.

Students will receive an email confirming their registration within three business days, except from Dec. 20 and Jan. 6.
